

2016-17 Christ House Program Report

“For I was hungry and you gave me something to eat, I was thirsty and you gave me something to drink, I was a stranger and you invited me in...”

Matthew 25:34-36

Many thanks to our Christ House donors and volunteers, through whose efforts more than 11,000 people have been served delicious and healthy homemade meals over St. Nicholas Cathedral’s 17 years of service!

In 2017 St. Nicholas has 10 regular volunteers and two substitutes who will combine their efforts to buy ingredients, cook, and serve lunch at Christ House. We need more volunteers! All it takes are a few hours twice or three times per year on the second Sunday of the month. Each team brings healthy ingredients—fish or meat, vegetables, salad, and fruit for dessert—and carools to Christ House to spend about an hour and a half after liturgy preparing the meal and serving an average of 45-55 individuals.

Volunteering is a “win” for St. Nicholas and a “win” for Christ House!

Volunteers enjoy getting better acquainted with their St. Nicholas teammates, serving their DC community, and sharing the feeling of fulfillment that results from helping those who are less fortunate. Christ House is grateful for our food purchases, the delicious and healthy lunches we prepare, and the Cathedral's loyal service over the years.

Christ House (www.christhouse.org), in the Adams-Morgan neighborhood of DC, is the only facility in the District of Columbia that offers comprehensive and compassionate health care to homeless men and women.
